BILLOW LOUNGE CHAIR

Inspired by heavy clouds resting above the mountains, the BILLOW LOUNGE CHAIR harmoniously blends dense, curvaceous upholstery with a linear, architectural base crafted from solid oak. BILLOW's sumptuous comfort and generous dimensions make it a rewarding seating option for any interior context, ranging from public spaces to homes and other private settings.

산 위에 떠 있는 무거운 구름에서 영감을 받은 BILLOW LOUNGE CHAIR는 곡선 형태의 시트와 견고한 오크 원목을 사용하여 건축적으로 만들어진 프레임이 조화롭게 어우러집니다. BILLOW의 넉넉한 안락함과 사이즈는 주거 공간부터 공용 공간에 이르기까지 다양한 환경에 적합합니다.

DEED SOFA

With its design that maintains simplicity and comfort, the DEED SOFA is a modular sofa that fills the space in various ways depending on the composition. The module system of the DEED SOFA creates stable harmony in any space. Vivid colors and a classic corduroy fabric texture make the DEED SOFA's volumetric shape even more attractive.

변함없이 베이직함을 지키는 디자인과 편안함을 가진 DEED SOFA는, 구성에 따라 다양하게 공간을 채우는 모듈러 소파입니다. DEED SOFA의 모듈 시스템은 어떠한 공간에서도 안정적인 조화를 만들어 냅니다. 선명한 색감과 고전적인 코듀로이 원단 질감은 DEED SOFA의 볼륨감 있는 형태를 더욱 매력적으로 만들어 줍니다.

STOUT CHAIR

Designed by STUDIO PESI, the **STOUT** collection comprises a dining chair and armchair constructed from powder-coated tubular steel. With its curved components and high level of craftsmanship, **STOUT** offers a balance between robust materiality and elegant form. As the name implies, this sturdy seating option brings durability and comfort to a variety of commercial spaces including cafes and restaurants as well as dining spaces at home.

STUDIO PESI가 디자인한 **STOUT**는 다이닝 চে어와 암 চে어로 구성된 의자 컬렉션입니다. 철제로 제작된 Stout는 강한 내구성을 지닌 소재와 우아한 형태가 균형을 이루고 있어, 높은 공예적 완성도를 가지고 있습니다. 단면이 타원으로 만들어진 등받이와 등받이에서부터 뒷다리까지 이어지는 부드러운 곡선이 특징인 Stout는 주변 공간 속에 따뜻함과 활력을 부여해 줍니다. 이름이 가진 뜻처럼, ‘통통하고 튼튼한’ Stout는 특유의 내구성과 편안함으로 가정의 다이닝 공간뿐만 아니라 카페나 레스토랑 등 다양한 상업공간과 어울립니다.

STUDIO PESI, which stands for Possibility, Essential, Standpoint, Interpretation, is a Seoul-based industrial design studio founded by Byoungwi Jeon in 2015. STUDIO PESI focuses on simplicity, functionality and rationality, aiming to deliver sensitive and emotional experiences into everyday life by exploring form, function and the potential of the industrial manufacturing process.

STUDIO PESI는 전병휘 디자이너에 의해 설립되어, 서울을 기반으로 활동하는 산업디자인 스튜디오입니다. STUDIO PESI의 디자인은 형태, 기능, 소재, 제작 공정에 대한 연구를 통한 간결성, 기능성 그리고 합리성에 집중합니다. 가구, 조명, 제품, 공간 등 다양한 산업 디자인의 분야에서 활동하고 있습니다.

ODDLY RUG

The bold design featured in the richly tactile **ODDLY** rug was inspired by a Joseon-era painting of strange, amorphous rock shapes. With a three-dimensional composition and an unpredictable, irregular pattern of both jagged lines and sweeping curves, the inviting color combinations pop when encountered across the varying levels of the carpet.

ODDLY RUG의 대담한 디자인은 기이한 형상의 바위를 그린 조선시대의 회화에서 영감을 받았습니다. 선과 곡선의 예측이 어려운 불규칙한 패턴과 색 조합에 단차를 두어 입체적인 구성을 하였습니다.

STUDIO WORD was established by Kyuhyung Cho and Jungyou Choi in 2019. Based between Seoul and Europe, the studio is active in the fields of graphic, product, furniture and space design. Their aim is to coin a creative and useful language of design based on the close observation and discovery of their surroundings and objects; their comprehensive understanding of tradition and modernity.

STUDIO WORD는 독립 디자이너로 활동하던 조규형, 최정유 디자이너가 2019년 공동으로 설립하고 서울과 유럽을 기반으로 그래픽, 제품, 가구, 공간 디자인 분야에서 활동하고 있습니다. 환경과 오브제에 대한 면밀한 관찰과 발견, 전통과 현대에 대한 포괄적 이해 그리고, 대상을 바라보는 새로운 관점과 정직한 태도를 바탕으로, 창의적이고 쓰임이 있는 디자인 언어를 만들어가고 있습니다.

CHROMA MIRROR

CHROMA is an art object and mirror inspired by a patchwork wrapping cloth—a vibrant example of traditional Korean craftwork created by weaving together colorful scraps of leftover fabric. In addition to wrapping or transporting objects, these useful cloths were sometimes hung on walls and used as kaleidoscopic interior decorations. **CHROMA** is a contemporary take on an object that combines the functional (mirror) with the pleasurable (art).

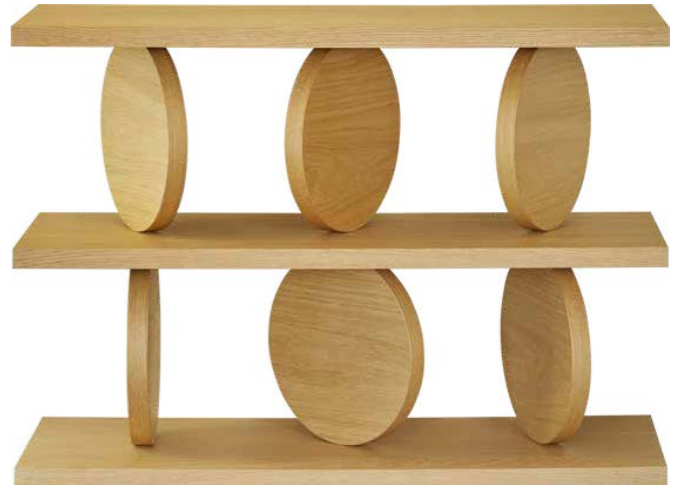

CHROMA는 조각보를 감싼 천에서 영감을 받은 예술품이자 거울입니다. 조각보는 색색의 남은 천 조각을 함께 엮어 만든 한국의 전통 공예품입니다. 물건을 포장해서 이동하는 기능 외에도 벽에 걸어 인테리어 소품으로 사용되기도 했습니다. CHROMA는 기능(거울)과 즐거움(예술)을 결합한 오브제에 대한 현대적 해석입니다.

STUDIO CHACHA's aim is to present a new sense of beauty through unfamiliar combinations of familiar materials in the making of furniture and objects. The studio is currently discovering new material properties by adding gradient colors to transparent glass, and changing the shape of angular objects into amorphous shapes.

익숙한 재료를 낯설게 조합해 새로운 미감을 보여주는 STUDIO CHACHA는 현재 유리로 가구와 오브제를 만들고 있습니다. 투명한 유리에 그라데이션 색을 덧입히거나 각진 사물의 형태를 비정형으로 바꾸는 식으로 새로운 물성을 부여하는 작업을 진행하고 있으며, 최근 작업들은 유리에 여러 색상의 레이어를 적용해 색들이 서로 교차하면서 만들어 낸 중층의 시각적 일루전이 특징입니다.

PIROUETTE SHELF

Based on a prototype produced by **KWANGHO LEE** in partnership with **Phaidon Press** in 2015, **PIROUETTE** has now been reimagined as a shelving collection reflecting **WEKINO's** distinctive creative philosophy. In the new collaboration, the role of the object has been maximized to offer diverse compositions including two-tier and three-tier options. Just like its new name, **PIROUETTE** is a flexible, multifunctional shelving system suited to all sorts of spaces.

PIROUETTE는 2015년 이광호와 뉴욕에 위치한 PHAIDON 출판사의 협업을 통해 제작한 프로토타입 선반을 토대로 하여, WEKINO만의 독창적인 철학이 반영된 새로운 모습으로 재탄생되었습니다. 2단, 3단, 사이드 테이블 등 기존보다 다양한 구성과 쓰임새를 갖는 오브제의 역할 또한 극대화하였습니다. PIROUETTE의 이름처럼 자유롭고 다양한 쓰임새를 상상할 수 있는 제품으로 모든 공간에 잘 어울리는 선반입니다.

Making things by hand provided great joy for **KWANGHO LEE** as a child, reminding him of his grandfather, a farmer, who regularly crafted household goods from natural materials found nearby. **LEE** appreciated this way of looking at everyday objects and began to approach his work in a similar fashion – giving new meaning and function to ordinary things.

이광호 작가는 유년 시절부터 자연을 곁에 두고 자라면서 주변에서 흔히 볼 수 있는 다양한 것들을 이용하여 놀이 도구를 만들고 그림 그리는 것에 흥미를 느끼며 성장하였습니다. 2007년 홍익대학교 금속 조형 디자인과를 졸업한 후 다양한 재료들이 가진 특성을 탐구하고 그 과정에서 얻어진 표현 방법을 끊임없이 반복하며 얻어진 결과를 이용하여 사물을 만들어 냅니다.

REEL HANGER

REEL HANGER is a coat rack designed by KUO DUO based on the dynamic, flowing characteristics of the creative studio's earlier product, Reel Basket. The aluminum body gives the hooks just the right amount of weight and strength, while the texture of the sand casted surface mimics the tactile feeling of a handmade ceramic. This handy accessory is offered in two sizes.

REEL HANGER는 KUO DUO가 2021년에 작업한 REEL BASKET의 역동적이고 흐르는 듯한 특성을 살린 행거입니다. 알루미늄 소재는 제품의 적당한 무게를 주고, 샌딩을 통해 생기는 표면은 마치 손을 빚은 것 같은 질감을 보여줍니다. REEL HANGER는 2가지 사이즈를 가지고 있습니다.

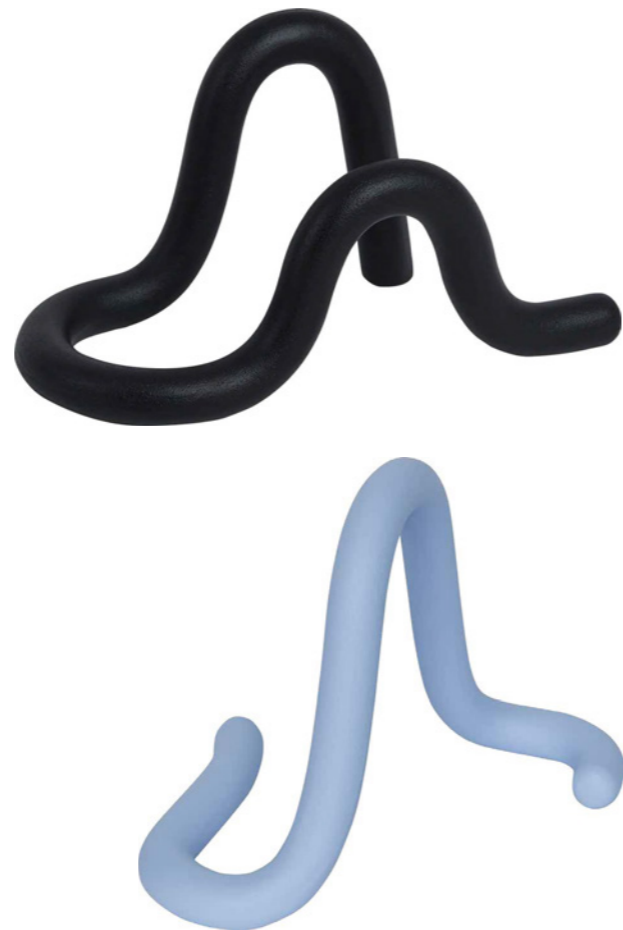

KUO DUO is a creative studio for three-dimensional design based in South Korea, led by Hwahan Lee and Yoomin Maeng who majored in Industrial Design at Hongik University in Seoul. The studio creates furniture, products for living and installations that explore the boundaries of design—from experimental one-off projects to mass-produced products. The design process is accompanied by hands-on experiments and investigations into materials and making, helping the studio to expand their adventures in expression.

KUO DUO는 이화찬과 맹유민이 이끄는 스튜디오입니다. 홍익대학교 산업디자인학과를 졸업한 뒤 가구, 리빙 제품, 공간 등의 3차원 디자인의 영역을 다루고, 이를 기획 및 제작하는 활동을 하고 있습니다. 다양한 재료와 제작 공법에 관한 탐구를 바탕으로 실험적인 성격의 아트웍 작업부터 대량생산 프로젝트에 이르기까지 디자인 결과물의 경계를 지속적으로 확장해나가는 것에 폭넓은 호기심을 가지고 있습니다.

BOOK WORM

For BOOK WORM, KUO DUO imagined a fluid, organic line. The product can store and display reading material, or function as an art object in its own right. Like the REEL HANGER, BOOK WORM is crafted using aluminum sand casting. The material's texture and weight grounds the product when placed on a shelf or table, while making it easy to display items ranging from slender LPs to hefty publications.

BOOK WORM은 직선과 직각의 책, 선반들 사이에서 자유로운 곡선이 흐르는 장면을 상상하며 디자인한 북엔드입니다. 책을 어떻게 놓는지에 따라 다양한 연출이 가능하며, 책 없이도 오브제의 기능을 합니다. REEL HANGER와 마찬가지로 알루미늄으로 제작된 BOOK WORM은 고유의 질감과 무게감은 선반이나 테이블 위에서 중심을 잡아줌과 동시에, 가벼운 LP부터 두꺼운 책들까지 디스플레이할 수 있습니다.
